EXPERIENCE

Customer Experience Consultant (Data Privacy & Security)

Cloaked - New York, NY

July 2025 - Present

- Support a 350,000+ user B2C cybersecurity SaaS platform via Zendesk/Intercom (chat, phone, email) to troubleshoot account, billing, and security issues across internal Django tools, Stripe, PayPal, and RevenueCat.
- Recognized as a top-performing consultant across multiple months, maintaining high QA scores while resolving high-volume support requests with strong client satisfaction (>50 five-star reviews).
- Identify bugs/workflow failures, recurring user friction points and client feedback trends to provide actionable product and UX insights/solutions to the Product, Design, Enablement, and Engineering teams.
- Improve client help center content, AI support tools, and internal/user-facing documentation, culminating in an optimization of >10 standard operating procedures (SOPs).
- Train and onboard 3+ new team members and provide guidance on client operations to a team of >10.

CX Fellow

KindWork.org - New York, NY

April 2025 - June 2025

- Completed Tech Customer Service Training program, focused on support scenarios, challenging interactions, and communication training to support the overall customer experience.
- Earned certifications in Zendesk, Intercom, and HIPAA compliance; gained technical fluency with Slack, Notion, Jira, macOS, and Google Suite.
- Maintained 99% QA score, resolving 10+ hourly inquiries across phone, chat, and email during training.
- Gained expertise in FinTech and HealthTech modules, EHR platforms, insurance claims, etc.

Full-Stack Development Team Lead

NPower - New York, NY

March 2024 - September 2024

- Managed a 3-member team to develop a full-stack product in <3 months using the MERN stack (MongoDB, Express, React.js, and Node.js), which was pitched to mock investors.
- Implemented an Agile-based approach to slash project delivery timelines by 25%.
- Translated user needs into product requirements, UX wireframes, and technical documentation.
- Designed and iterated on user flows in Figma, improving overall product experience.

Project Manager- Data and Community Initiatives

Pillars of Peace - New York, NY

August 2022 - February 2024

- Delivered legal, housing, and community support to 100+ clients in collaboration with the New York City Mayor's Office to End Domestic and Gender Based Violence (ENDGBV).
- Migrated 300+ client records into a structured CMS, improving data integrity, reporting, and system scalability.
- Designed and led social media branding/accounts, print material, and merchandise production, with campaign work featured in a prominent ENDGBV marketing campaign for LinkNYC kiosks across all 5 NYC boroughs.
- Redesigned intake and internal workflows via process mapping and user insights, reducing response time by 25%.
- Produced data-driven annual reports and dashboards to support leadership decision-making and funding strategy.
